Tree Replacements

In October of 2021 the Whispering Pines Board of Directors hired an Arborist to review and identify trees throughout our community that were non-viable and needed to be replaced. This included trees on the “tree lawn” area between the sidewalk and the street, front yards, as well as open spaces and district owned landscape.

The District is thrilled to share that we have just completed our tree replacement project! We are working closely with Davey Tree and BrightView, our irrigation service to protect our new trees.

If you missed the Spring window for replacing your own non-viable trees, the Fall replacement window is fast approaching! Please plan on getting your trees replaced by October 10th, 2022. Reminders will be going out in the mail shortly with some helpful information!

READY TO MAKE A CHANGE?

Fall is a great time for home improvements! The weather is mild and we can get a lot done, please submit your project to the DRC (Design Review Committee) for approval before you start. Save yourself a headache! The DRC meets the first and third Wednesday of each month and will get you an answer before you start your project to avoid costly revisions. Not sure where to start? Check out our website www.whisperingpinesdistrict.com or reach out to Angela at angela@teleos-services.com and she will point you in the right direction.

A Heartfelt Thank You!

A heartfelt thank you for the years of service to Janet and the entire Social Committee! If you happen to see them out and about please let them know how they have impacted your life in the neighborhood. We have them to thank for our Food Truck Wednesdays, Movie Nights, Independence Day Parades... and so much more!

LIGHTING STUDY SESSION

We will be hosting a special study session in September on the District lighting rules and regulations so that we can gather community feedback. A separate email will be coming out shortly announcing the date and time of the study session. Please forward any question or concerns regarding our current lighting rules to Angela at angela@teleos-services.com if you are unable to attend the meeting so that we may capture your thoughts. Our current lighting rules can be found on our website at www.whisperingpinesdistrict.com
