### • Full Results Report •

The Guideline Revision Committee (GRC) is a committee made up of Whispering Pines community residents; your neighbors.

The committee was created to begin the revision of the current Design Guidelines.

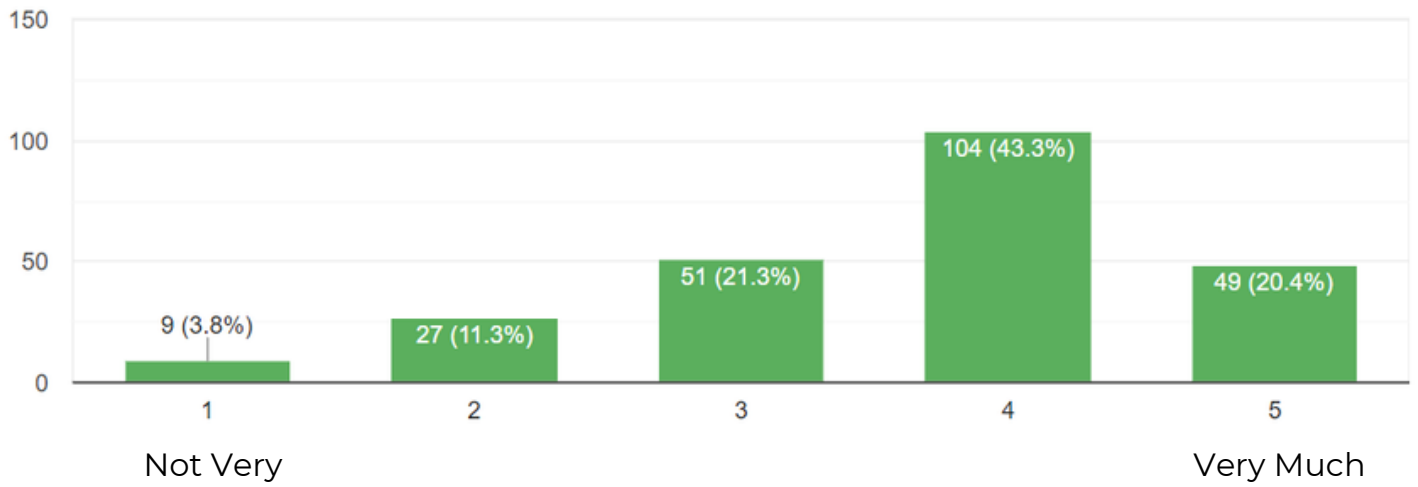

As a first step, the committee sent out a survey. The following is a full detailed report of the results.

The Guideline Revision survey was sent out to about 550 Whispering Pines residents and 240 responses were returned over the 3 days the survey was open.

The GRC will use the results of this survey to prioritize which guidelines to put through the revision process first. The GRC will be revising a variety of the guidelines in time utilizing input from the community.
